

Contacts for Developers

Fire Hydrant Flow Information:

FireFlowData@fairfaxwater.org

Please include the address for the area of the request. Fire Flow requests must also include your name and company contact information as well as information about how the map will be used.

Map Request:

To request a water system map from Fairfax Water, please access our [online request form](#). Fairfax Water will not deliver system-wide coverage for any data set or map. Map requests must also include your name and company contact information as well as information about how the map will be used. All requests are subject to review and authorization before delivery is made.
